

Network Interfaces

Communication is essential...

in almost all aspects of life. Your ring back system is no exception and needs to communicate with the rest of your network successfully. For this, you need the right set of network interfaces with the flexibility to interact with your network regardless of the different protocols used in it. Click on the different interfaces for more information.

Network Elements	SMSC	USSD GW	SOAP API	SMTP	NTP
Operation and Maintenance (O&M)		Web		SNMP	
Content Provisioning		Web		FTP	
Billing		Online		Offline	
Subscribers Provisioning		Batch		Provisioning System
